

Claranova ranked among the 40 top-performing Tech companies by European experts (Tech40 label and Euronext Tech40 index)

Paris, France – 2 May 2018. The Claranova group has joined the companies awarded the Tech40 label in 2018 and earned a listing on the Euronext Tech40 index.

Launched in 2015, this index brings together the 40 top-performing companies in the Tech sector listed on Euronext and operating in the life sciences, cleantech or Technology-Media-Telecom sectors.

Claranova has been selected on the basis of its economic, financial and capital market performance by a panel of independent European experts who select, each year, the 40 companies included in the index.

“We are proud to be listed on the Euronext Tech40 index that highlights the top-performing technological values in the market. This recognition confirms the very positive direction of our activities and will help to increase our visibility in relation to European investors,” commented Pierre Cesarini, CEO of the Claranova group.

The Claranova group features in the CAC ALL SHARES, CAC ALL-TRADABLE, CAC MID&SMALL, CAC PME, CAC SMALL, CAC SOFT. & C. S and ENTERNEXT PEA-PME 150 indices.

About Claranova:

A global Internet and mobile player, Claranova is one of the few French companies in this sector to post sales of over €130 million, more than half of which is generated in the United States. Claranova focuses its strategy on three areas of business – digital printing through the Group’s PlanetArt division, management of the Internet of Things (IoT) via the myDevices division and e-commerce through the Avanquest division:

- *PlanetArt: A world leader in mobile printing, specifically via the FreePrints offer – the cheapest and simplest way to print photos from a smartphone – FreePrints is already a must-have for several million customers, a figure that has grown every year since its launch;*
- *myDevices: A global platform for IoT (Internet of Things) management enabling major corporations from different business sectors to quickly develop and roll out IoT solutions for their customers;*
- *Avanquest Software: the Group’s legacy activity covering the distribution of third-party software, a business that is shifting towards the monetisation of Internet traffic. .*
